MADE WITH ULTRAGRAIN WHOLE WHEAT FLOUR

Whole Grain Fried Tortilla Chips

Our Pre-Fried Tortilla Chips meet whole grain requirements while delivering superior crunch and performance. Made using traditional masa methods and 100% whole corn, these chips provide the nutritional standards you need without sacrificing rich, authentic corn flavor. Ready to serve with reliable durability, they bring compliance and convenience to every application.

- 100% Whole Kernal Corn
- 100% Whole Grain
- Ground in Batches
- Ambient Storage
- Less Breakage
- Consistent Sizing
- Kosher Certified

We use 100% whole corn because your chips deserve better.

Whole Grain Fried Tortilla Chips
Storage Guidelines

For Best Results:

- Store in a cool, dry place in closed containers or packages; this ensures maximum freshness and shelf life
- Avoid storing near any source of heat
- Do not refrigerate or freeze
- Fragile! Nothing should be stacked or stored on top of the case

PRO - TIP:

If chips are left open, they will become tough and chewy.

Place them under a heat lamp OR in oven to re-crisp

Pressed Tortillas

Storage Guidelines

For Best Results:

- Store at room temperature, even after opening, sealed, in product's original packaging
- Stacking packages higher than 4 high could cause sticking in the bottom packages
- Refrigerated storage is not necessary, but can be stored refrigerated in their original sealed bags between 35°F - 40°F
- Bring to room temperature before usage
- Frozen storage is not recommended as it greatly affects product quality and performance
